Roubaix takes its name from a quaint village in northern France along the Dutch border. The collection draws on the influences of Dutch Colonial and French Neoclassical designs and incorporates distinctively turned feet with generously scaled cases.

Our family's craftsmen have worked to marry time-honored construction techniques such as mortise-and-tenon joinery with modern conveniences, like a locking drawer behind the authentic mouldings atop each case. We take pride in the details, like graduated drawers and full English dovetailing, that most of our competitors gave up years ago to cut costs.

We've meticulously finished each piece by hand in a rich mahogany stain with carefully detailed hand-burnished edges to give the beautiful curly maple an old world look.

The collection features 3 beds and a multitude of storage pieces. The generous Ardenne trestle dining table extends to 106" to seat 10 of your nearest and dearest. When your tastes run traditional but not 18th Century, Roubaix is sure to enhance the beauty of your home.
